(b) A donor's revocation of an anatomical gift of the donor's body or part under Section 6 is not a refusal and does not bar another person specified in Section 4 or 9 from making an anatomical gift of the donor's body or part under Section 5 or 10.

(c) If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part under Section 5 or an amendment to an anatomical gift of the donor's body or part under Section 6, another person may not make, amend, or revoke the gift of the donor's body or part under Section 10.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 4, an anatomical gift of a part for one or more of the purposes set forth in Section 4 is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under Section 5 or 10.

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or part.

(4) Parents of the decedent;
(5) Adult siblings of the decedent;
(6) Adult grandchildren of the decedent;

(b) If there is more than one (1) member of a class listed in subsection (a)(1), (3), (4), (5), (6), (7), or (9) entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under Section 11 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(c) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection (a) is reasonably available to make or to object to the making of an anatomical gift.

SECTION 10. MANNER OF MAKING, AMENDING, OR REVOKING ANATOMICAL GIFT OF DECEDENT'S BODY OR PART. (a) A person authorized to make an anatomical gift under Section 9 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(b) Subject to subsection (c), an anatomical gift by a person authorized under Section 9 may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one (1) member of the prior class is
reasonably available, the gift made by a person authorized under
Section 9 may be:

(1) Amended only if a majority of the reasonably
available members agree to the amending of the gift; or
(2) Revoked only if a majority of the reasonably
available members agree to the revoking of the gift or if they are
equally divided as to whether to revoke the gift.

(c) A revocation under subsection (b) is effective only if,
before an incision has been made to remove a part from the donor's
body or before invasive procedures have begun to prepare the
recipient, the procurement organization, transplant hospital, or
physician or technician knows of the revocation.

SECTION 11. PERSONS THAT MAY RECEIVE ANATOMICAL GIFT;

PURPOSE OF ANATOMICAL GIFT. (a) An anatomical gift may be made
to the following persons named in the document of gift:

(1) A hospital; accredited medical school, dental
school, college, or university; organ procurement organization; or
other appropriate person, for research or education;
(2) Subject to subsection (b), an individual designated
by the person making the anatomical gift if the individual is the
recipient of the part;
(3) An eye bank or tissue bank.

(b) If an anatomical gift to an individual under subsection
(a)(2) cannot be transplanted into the individual, the part passes
in accordance with subsection (g) in the absence of an express,
contrary indication by the person making the anatomical gift.

(c) If an anatomical gift of one or more specific parts or
of all parts is made in a document of gift that does not name a
person described in subsection (a) but identifies the purpose for
which an anatomical gift may be used, the following rules apply:

(1) If the part is an eye and the gift is for the
purpose of transplantation or therapy, the gift passes to the
appropriate eye bank.
(2) If the part is tissue and the gift is for the
purpose of transplantation or therapy, the gift passes to the
appropriate tissue bank.

(3) If the part is an organ and the gift is for the
purpose of transplantation or therapy, the gift passes to the
appropriate organ procurement organization as custodian of the
organ.

(4) If the part is an organ, an eye, or tissue and the
gift is for the purpose of research or education, the gift passes
to the appropriate procurement organization.

(d) For the purpose of subsection (c), if there is more than
one (1) purpose of an anatomical gift set forth in the document of
gift but the purposes are not set forth in any priority,
the gift must be used for transplantation or therapy, if suitable.

If the gift cannot be used for transplantation or therapy, the
gift may be used for research or education.

(e) If an anatomical gift of one or more specific parts is
made in a document of gift that does not name a person described
in subsection (a) and does not identify the purpose of the gift,
the gift may be used only for transplantation or therapy, and the
gift passes in accordance with subsection (g).

(f) If a document of gift specifies only a general intent to
make an anatomical gift by words such as "donor," "organ donor,"
or "body donor," or by a symbol or statement of similar import,
the gift may be used only for transplantation or therapy, and the
gift passes in accordance with subsection (g).

(g) For purposes of subsections (b), (e), and (f) the
following rules apply:

(1) If the part is an eye, the gift passes to the
appropriate eye bank.

(2) If the part is tissue, the gift passes to the
appropriate tissue bank.
(3) If the part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(h) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under subsection (a)(2), passes to the organ procurement organization as custodian of the organ.

(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) or the decedent's body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under Section 5 or 10 or if the person knows that the decedent made a refusal under Section 7 that was not revoked. For purposes of the subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subsection (a)(2), nothing in this law affects the allocation of organs for transplantation or therapy.

SECTION 12. SEARCH AND NOTIFICATION. (a) The following persons shall make a reasonable search of an individual who the person reasonably believes is dead or near death for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

(1) A law enforcement officer, fire fighter, paramedic, or other emergency rescuer finding the individual; and

(2) If no other source of the information is immediately available, a hospital, as soon as practical after the individual's arrival at the hospital.
(b) If a document of gift or a refusal to make an anatomical gift is located by the search required by subsection (a)(1) and the individual or deceased individual to whom it relates is taken to a hospital, the person responsible for conducting the search shall send the document of gift or refusal to the hospital.

(c) A person is not subject to criminal or civil liability for failing to discharge the duties imposed by this section but may be subject to administrative sanctions.

SECTION 13. DELIVERY OF DOCUMENT OF GIFT NOT REQUIRED; RIGHT TO EXAMINE. (a) A document of gift need not be delivered during the donor's lifetime to be effective.

(b) Upon or after an individual's death, a person in possession of a document of gift or a refusal to make an anatomical gift with respect to the individual shall allow examination and copying of the document of gift or refusal by a person authorized to make or object to the making of an anatomical gift with respect to the individual or by a person to which the gift could pass under Section 11.

SECTION 14. RIGHTS AND DUTIES OF PROCUREMENT ORGANIZATION AND OTHERS. (a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the Mississippi Department of Public Safety and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the Mississippi Department of Public Safety to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift.
for transplantation, therapy, research, or education from a donor or a prospective donor. The organ procurement organizations, tissue bank, or eye bank, or hospital medical professionals under the direction thereof, may perform any and all tests to evaluate the deceased as a potential donor and any invasive procedures on the deceased body in order to preserve the potential donor's organs. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent. The procurement organization representative shall initiate the consent process with reasonable discretion and sensitivity to the family's circumstances, values and beliefs.

(d) Unless prohibited by law other than this law, at any time after a donor's death, the person to which a part passes under Section 11 may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(e) Unless prohibited by law other than this law, an examination under subsection (c) or (d) may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) Upon referral by a hospital under subsection (a), a procurement organization shall make a reasonable search for any person listed in Section 9 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any
other person was made, amended, or revoked, it shall promptly
advise the other person of all relevant information.

(h) Subject to Sections 11(i) and 22, the rights of the
person to which a part passes under Section 11 are superior to the
rights of all others with respect to the part. The person may
accept or reject an anatomical gift in whole or in part. Subject
to the terms of the document of gift and this law, a person that
accepts an anatomical gift of an entire body may allow embalming,
burial or cremation, and use of remains in a funeral service. If
the gift is of a part, the person to which the part passes under
Section 11, upon the death of the donor and before embalming,
burial, or cremation, shall cause the part to be removed without
unnecessary mutilation.

(i) Neither the physician who attends the decedent at death
nor the physician who determines the time of the decedent's death
may participate in the procedures for removing or transplanting a
part from the decedent.

(j) A physician or technician may remove a donated part from
the body of a donor that the physician or technician is qualified
to remove.

SECTION 15. COORDINATION OF PROCUREMENT AND USE. Each
hospital in this state shall enter into agreements or affiliations
with procurement organizations for coordination of procurement and
use of anatomical gifts.

SECTION 16. SALE OR PURCHASE OF PARTS PROHIBITED. (a)
Except as otherwise provided in subsection (b), a person that for
valuable consideration, knowingly purchases or sells a part for
transplantation or therapy if removal of a part from an individual
is intended to occur after the individual's death commits a felony
and upon conviction is subject to a fine not exceeding Fifty
Thousand Dollars ($50,000.00) or imprisonment not exceeding five
(5) years, or both.
(b) A person may charge a reasonable amount for the removal, processing, preservation, quality control, storage, transportation, implantation, or disposal of a part.

SECTION 17. OTHER PROHIBITED ACTS. A person that, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a document of gift, an amendment or revocation of a document of gift, or a refusal commits a felony and upon conviction is subject to a fine not exceeding Fifty Thousand Dollars ($50,000.00) or imprisonment not exceeding five (5) years, or both.

SECTION 18. IMMUNITY. (a) Any person who, in good faith and acting in reliance upon and authorization made under the provisions of this law and without notice of revocation thereof, takes possession of, performs surgical operations upon, removes tissue, substances or parts from the human body, or refuses such a gift, and any person who unknowingly fails to carry out the wishes of the donor according to the provisions of this law shall not be liable for damages in a civil action brought against him for that act.

(b) Neither the person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(c) In determining whether an anatomical gift has been made, amended, or revoked under this law, a person may rely upon representations of an individual listed in Section 9(a)(2), (3), (4), (5), (6), (7), or (8) relating to the individual's relationship to the donor or prospective donor unless the person knows that the representation is untrue.

SECTION 19. LAW GOVERNING VALIDITY; CHOICE OF LAW AS TO EXECUTION OF DOCUMENT OF GIFT; PRESUMPTION OF VALIDITY. (a) A document of gift is valid if executed in accordance with:

(1) This law;
(2) The laws of the state or country where it was executed; or

(3) The laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this section, the law of this state governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

SECTION 20. DONOR REGISTRY. (a) The Mississippi Department of Public Safety may establish or contract for the establishment of a donor registry.

(b) The Mississippi Department of Public Safety shall cooperate with a person that administers any donor registry that this state establishes, contracts for, or recognizes for the purpose of transferring to the donor registry all relevant information regarding a donor's making, amendment to, or revocation of an anatomical gift.

(c) A donor registry must:

(1) Allow a donor or other person authorized under Section 4 to include on the donor registry a statement or symbol that the donor has made, amended, or revoked an anatomical gift;

(2) Be accessible to a procurement organization to allow it to obtain relevant information on the donor registry to determine, at or near death of the donor or a prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift; and

(3) Be accessible for purposes of paragraphs (1) and (2) seven (7) days a week on a twenty-four-hour basis.
(d) Except as otherwise provided in subsection (f), personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor, or person that made the anatomical gift for any purpose other than to determine, at or near death of the donor or prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift.

(e) This section does not prohibit any person from creating or maintaining a donor registry that is not established by or under contract with the state. Any such registry must comply with subsections (c) and (d).

(f) At the time that a person is renewing his or her driver's license, the Department of Public Safety shall ask the person if he or she would like to be a donor. If the answer is yes, the department shall inform the prospective donor that his or her decision to be a donor cannot be revoked, changed or contested after his or her death by the donor's next of kin or by any other person, and shall ask the person if he or she desires information about the person's decision to be a donor to be sent to another person or persons. If the answer is yes, the department shall obtain the name and mailing address of the person or persons designated by the prospective donor, and the donor registry shall send the information about the prospective donor's decision to the designated person or persons as requested.

SECTION 21. EFFECT OF ANATOMICAL GIFT ON ADVANCE HEALTH CARE DIRECTIVE. (a) In this section:

(1) "Advance health care directive" means a power of attorney for health care or a record signed or authorized by a prospective donor containing the prospective donor's direction concerning a health care decision for the prospective donor.

(2) "Declaration" means a record signed by a prospective donor specifying the circumstances under which a life
support system may be withheld or withdrawn from the prospective donor.

(3) "Health care decision" means any decision regarding the health care of the prospective donor.

(b) If a prospective donor has a declaration or advance health care directive and the terms of the declaration or directive and the express or implied terms of a potential anatomical gift are in conflict with regard to the administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy, the prospective donor's attending physician and prospective donor shall confer to resolve the conflict. If the prospective donor is incapable of resolving the conflict, an agent acting under the prospective donor's declaration or directive, or, if none or the agent is not reasonably available, another person authorized by law other than this law to make health care decisions on behalf of the prospective donor, shall act for the donor to resolve the conflict. The conflict must be resolved as expeditiously as possible. Information relevant to the resolution of the conflict may be obtained from the appropriate procurement organization and any other person authorized to make an anatomical gift for the prospective donor under Section 9. Before resolution of the conflict, measures necessary to ensure the medical suitability of the part may not be withheld or withdrawn from the prospective donor if withholding or withdrawing the measures is not contraindicated by appropriate end-of-life care.

SECTION 22. NOTIFICATION OF MEDICAL EXAMINER IF DECEASED PATIENT IS SUBJECT OF MEDICAL-LEGAL DEATH INVESTIGATION. (a) If the deceased patient is medically suitable to be an organ and/or tissue donor, as determined by the procurement organization, and the donor and/or family has authorized the donation and transplantation, the donor's organs and/or tissues shall be removed for the purpose of donation and transplantation by the
organ procurement organization, in accordance with subsection (b) of this section.

(b) If the deceased patient is the subject of a medical-legal death investigation, the procurement organization shall immediately notify the appropriate medical examiner that the deceased patient is medically suitable to be an organ and/or tissue donor. If the medical examiner determines that examination, analysis or autopsy of the organs and/or tissue is necessary for the medical examiner's investigation, the medical examiner may be present while the organs and/or tissues are removed for the purpose of transplantation. The physician, surgeon or technician removing the organs and/or tissues shall file with the medical examiner a report detailing the donation, which shall become part of the medical examiner's report. When requested by the medical examiner, the report shall include a biopsy or medically approved sample, as specified by the medical examiner, from the donated organs and/or tissues.

(c) In a medical-legal death investigation, decisions about organ and/or tissue donation and transplantation shall be made in accordance with a protocol established and agreed upon by majority vote of procurement organization, a certified state pathologist who shall be appointed by the Mississippi Commissioner of Public Safety, a representative from the University of Mississippi Medical Center, a representative from the Mississippi Coroners Association, an organ recipient who shall be appointed by the Governor, the Director of the Mississippi Bureau of Investigation of the Mississippi Department of Public Safety, and a representative of the Mississippi Prosecutor's Association appointed by the Attorney General. The protocol shall be established so as to maximize the total number of organs and/or tissues available for donation and transplantation. Organs and/or tissues designated by virtue of this protocol shall be recovered. The protocol shall be reviewed and evaluated on an annual basis.
